INTERACTIVE
EXPERIENCE

BRAINSTORM

come up with three different ideas of themes + interactive features

Idea 1: Star Wars interactive adventure

ARRE Sbloccate 28/88

Theme Galassia 27,74 %

Display different star wars characters, weapons, and planets

Interactive JS Feature #1 Interactive JS Feature #2 Interactive JS Feature #3

Each planet brings you to a page with For each character, background information will be presented.

Each character will be selectable as well, and on click, displays their item/ weapon.

Reset button on each page

Selezione un pianeta da esplorare

SELEZIONA

PHASE 0

Idea 2: Guardians of the Galaxy: The collectors vault

Theme

Different marvel characters and description of powers and where they appear

Interactive JS Feature #1
Interactive JS Feature #2
Interactive JS Feature #3

Each element will represent a marvel character trapped inside a display

Each character will have background information & the character will have what comic/move appearances they've had when given an option to, you can escape with them

Idea 3: My room design

Theme: different elements bring you to different songs/ information. Room with different items/ posters. Custom room design with personalization

Interactive JS Feature #1

Around the room there are different pictures of family/ interests. On click, the photos will be zoomed in.

Interactive JS Feature #2

Album covers around the room will play music on click.

Interactive JS Feature #3

Different items will have background information about artists/ celebrities like.

EVALUATE

think about the good and bad for each idea then choose one

PHASE 1

Pros/Cons of Each Idea:

	Pros	Cons
Idea 1: Star Wars	<ul style="list-style-type: none"> Fun Star Wars Simple idea 	<ul style="list-style-type: none"> Which planets? What if you don't know anything about star wars?
Idea 2: Marvel	<ul style="list-style-type: none"> Fun escape Marvel Many images to choose 	<ul style="list-style-type: none"> Many characters What version of the character?
Idea 3: My room	<ul style="list-style-type: none"> Things I enjoy Music I like 	<ul style="list-style-type: none"> What will the room really look like?

CONTENT

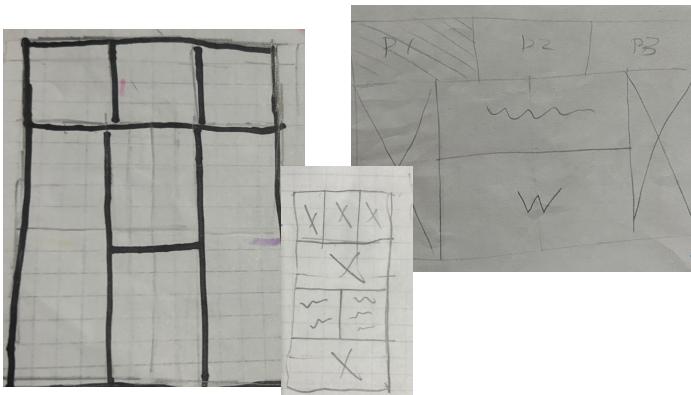

gather and edit essential content for your site

PHASE 2

DESIGN

create three possible responsive designs for your chosen idea

MOCKUP

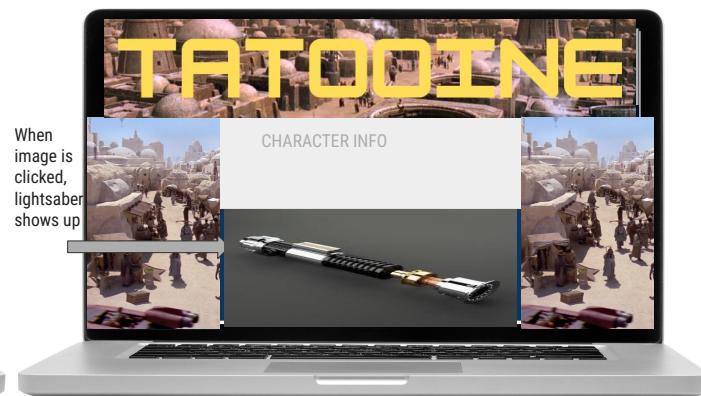

choose your final layout and create a digital mockup

When clicking this, it goes back to home screen(resets all)

When each planet is clicked, the screen changes

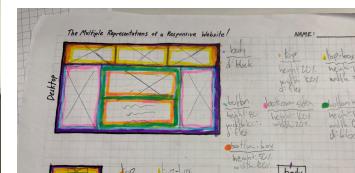

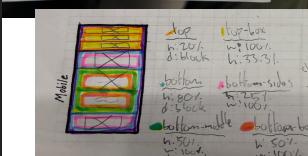

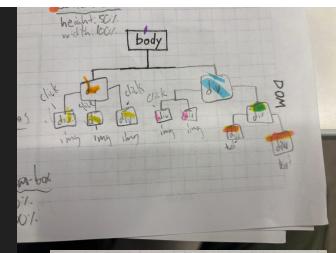

When
image is
clicked,
lightsab
shows u

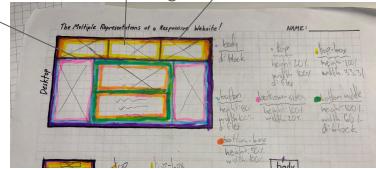

ANNO TATE

add explanations, colors, percentages, and display properties + draw your dom

The image shows two large, stylized logos side-by-side. The logo on the left is orange and red, featuring a white '5' shape that suggests a play button or a volume dial. The logo on the right is blue and teal, featuring a white '3' shape. Both logos have a three-dimensional, blocky appearance.

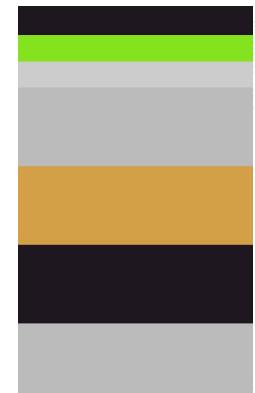

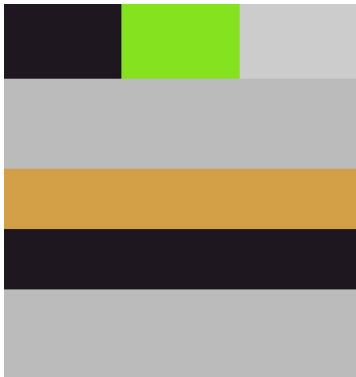

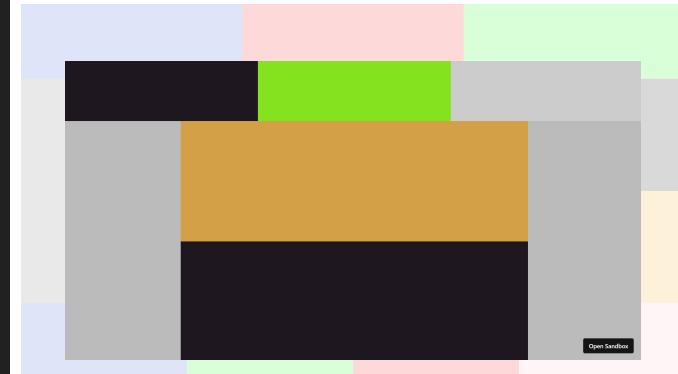

When clicked, screen changes

BUILD

create your desktop divs using html and css then make it responsive

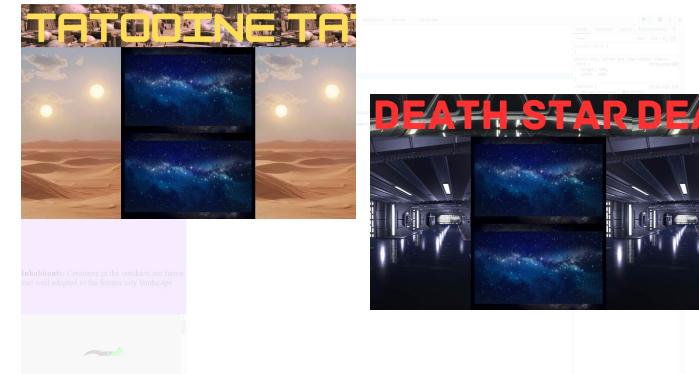

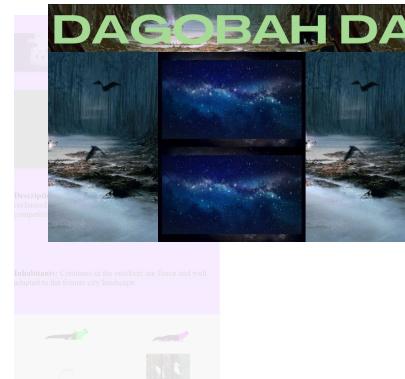

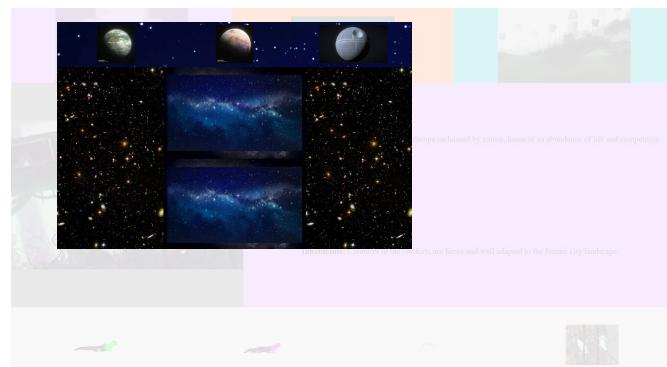

PHASE 6

CONTENT

insert all images and text into your site

PHASE 7

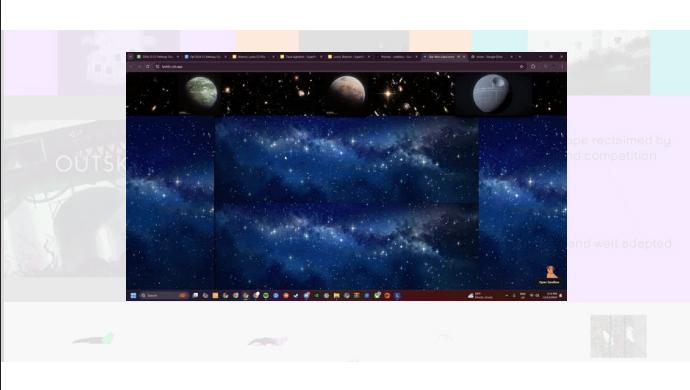

JAVASCRIPT

add behavior to your page by inserting three pieces of javascript

PHASE 8

PHASE 8

ENHANCE UX

add in effects when the user hovers and clicks to make the page intuitive and fun

PHASE 9

TEST+ITERATE

get feedback from users then make revisions to your user interface

PHASE 10
